

ADCO ELECTRICAL CORPORATION

Commercial — Industrial — Residential

Client: *Barney's New York*
660 Madison Ave Renovation

Complete Electrical and Communications renovation of 575,000 SF, 23 Floor structure beginning in 1993. In addition to providing 11 floors of retail and office installations, ADCO also completed the core and shell work for the entire 23 floor structure including Con Edison vault work, 4,000 Amp service, new switchboards, distribution panels, 600 KW generator and conduits for riser. Installations included point of sales systems, specialty fixtures, dimming systems, and fire alarm and security for the entire building and cooling towers.

Building Systems Included:

- Telephone System including multiple risers and empty conduit system to all locations
- Owner Revenue Tenant Metering System
- Dimming System which incorporated the lobby and building façade
- Lighting of the building façade, lobby, public spaces and mechanical rooms
- High Temperature Alarm System
- Building Fire Alarm System

Completed 1994

Maintenance continued to present
