

ADCO ELECTRICAL CORPORATION

Commercial — Industrial — Residential

**Client: *New York Board of Trade
1 North End Avenue
Electric & Communications***

- Installed all electrical and communications cable for the new commodities trading floor as well as the two floors of back office and network supervision operations.
- Both electrical and telecommunications systems installed with man-power remaining for a four year electrical and telecom maintenance contract.
- The communications cabling supports 410 Siemens Hicom trading turrets utilizing 200 micron fiberoptic cable for 1700 traders. In addition, all 700 NEC 20" LCD monitors and 200 multiSync 15" LCD flat screens were mounted on overhead truss supports and utilized a mini RGB coax cable.
- VoIP (Voice Over IP) telephones and data connectivity were provided for with CommScope CAT 5E cable and Siemon connectivity hardware.
