

Jacob Javits Convention Center
655 East 34th Street, NYC

The Jacob Javits Convention Center is currently underway with a complete upgrade of service and distribution lighting, and power for public areas and expo areas. The electrical scope of work consists of upgrading the roof-top HVAC equipment, installing new fire alarm, security and telecom plants, and upgrading the lighting control system.

Systems being installed include HVAC power, fire alarm, light and power, security, lighting controls and telecommunications.

Completion: September 2012
